

# Trust Management *Platform*

*Serving Humanity, Building Hope*

A unified digital platform connecting donors, volunteers, and beneficiaries — purpose-built for fundraising growth, transparent governance, and lasting community impact across 220+ villages in three Indian states.

PRESENTED TO

Board of Trustees

SEPTEMBER 2026

Mumbai, India

# Why this platform is must-have, not nice-to-have

*Two forces make a unified digital platform urgent for the Trust today — fundraising growth and client connectivity.*

## FUNDRAISING GROWTH

### Donors expect a digital, receiptable, transparent experience

Cash-and-cheque donations are declining across India while UPI and online giving grow 28% year-on-year. Donors now expect instant 80G receipts, campaign progress visibility, and the ability to give in under 60 seconds — or they give elsewhere.

- **28% YoY** growth in Indian online donations
- **60 seconds** — donor patience window
- **80G receipt** expected within minutes

## CLIENT CONNECTIVITY

### Beneficiaries, volunteers, partners expect a single front door

Today a beneficiary, a CSR partner, and a volunteer each face different, fragmented touchpoints. A single platform gives every stakeholder one consistent, traceable front door — closing the trust loop between intent, action, and impact.

- **3 stakeholder types**, 1 platform
- Every enquiry **tracked end-to-end**
- Impact visible to **donor and beneficiary** alike

# One platform, two surfaces, twenty modules

*A public website for outreach and an admin console for operations — built on the same data, governed by the same roles.*

# 10

PUBLIC PAGES

## Public Website

The donor, beneficiary, and partner front door — campaigns, donations, stories, transparency, and contact in one place.

- Home
- About
- Activities
- Campaigns
- Donate
- Sponsorship
- Gallery
- News
- Transparency
- Contact

# 20

ADMIN MODULES

## Admin Console

The operational brain — activities, beneficiaries, donations, finance, content, certificates, audit, and roles in one governed workspace.

### PROGRAMS

Activities · Beneficiaries · Events · Volunteers

### FUNDRAISING

Donations · Campaigns · Sponsorships · CSR · Grants

### FINANCE

Expenses

### CONTENT

News · Gallery · Documents · Certificates

### ADMIN

Enquiries · Notifications · Users · Audit · Settings

# Ten pages, one front door for every stakeholder

Every page is engineered for a single stakeholder job — from making a 60-second donation to verifying a 80G receipt by QR code.

DONOR · MUST-HAVE

## Donate Now

Three-step flow — donor info, UPI/Card/Net Banking, instant 80G PDF receipt in under 60 seconds.

PUBLIC

## Home

Hero, impact stats, active campaigns, latest news, and testimonials in one scroll.

PUBLIC

## About the Trust

History, trustees, advisory council, organisation structure, registration details.

BENEFICIARY

## Activities & Projects

Filterable project catalogue across 10 categories with impact metrics.

DONOR

## Campaigns

Active fundraising campaigns with live progress bars and donate CTAs.

DONOR

## Sponsorship

Six recurring sponsorship tiers — child, education, food, medical, event, equipment.

PUBLIC

## Gallery

Photo and video albums with lightbox, filterable by activity and event.

PUBLIC

## News & Updates

Featured article plus filterable news grid with categories and author bylines.

DONOR · PUBLIC

## Transparency

Live charts, annual reports, audited financials, and downloadable certificates.

PARTNER · PUBLIC

## Contact

Categorised enquiry form routing to the right team within 24 hours.

AST

1

FRONT DOOR

One platform, ten purpose-built pages.

# Twenty governed modules behind one login

*Every record the Trust creates — a donation, a beneficiary, an expense, a certificate — is governed by role-based access and recorded in the audit log.*

## SECTION 01

### Programs

*Where the work happens*

- Activities
- Beneficiaries
- Events
- Volunteers

## SECTION 02

### Fundraising

*The must-have core*

- Donations
- Campaigns
- Sponsorships
- CSR Partners
- Grants

## SECTION 03

### Finance

*Every rupee traceable*

- Expenses
- Fund Utilisation
- Reports

## SECTION 04

### Content

*The story we tell*

- News
- Gallery
- Documents
- Certificates

## SECTION 05

### Administration

*Governance and access*

- Enquiries
- Notifications
- Users & Roles
- Audit Log
- Settings

***Six predefined roles*** — *Super Admin, Trust Admin, Accounts, Project Manager, Volunteer Coordinator, Content Manager* — each with module-scoped permissions.

# The must-have core for fundraising growth

*Five interlocking modules turn one-time donations into recurring sponsorships, corporate partnerships, and grants — with full transparency on every rupee received and utilised.*

₹1.85 Cr

TOTAL FUNDS FY 25-26

Across donations, CSR, grants, sponsorships.

6

ACTIVE CAMPAIGNS

Average 65% funded, 4 closing within 90 days.

3-step

DONATION FLOW

UPI / Card / Net Banking — instant 80G receipt.

## Donations

Three-step flow, instant 80G PDF, automatic donor database, payment failure alerts.

## Campaigns

Target tracker, live progress bar, beneficiary count, gallery, and donate CTA.

## Sponsorships

Six recurring tiers, monthly auto-renew, sponsor certificates, renewal reminders.

## CSR Partners

Corporate database, partnership status tracking, contribution reports.

## Grants

Sanctioned vs received vs utilised vs balance — full funding-to-project trail.

# Trust is earned, then audited

*Every record the Trust creates is traceable, every rupee accountable, and every certificate verifiable — by donors, regulators, and the public.*

## PUBLIC TRANSPARENCY

### Public Reports & Live Charts

A dedicated public transparency page with monthly donation trends, donation source breakdown, and category distribution — alongside every registration document, audited financial, and annual report downloadable as PDF.

- ✓ Guidestar Platinum rated (3rd year)
- ✓ Annual reports, audit reports, 80G/12A certificates
- ✓ Live charts updated monthly

## INTERNAL GOVERNANCE

### Audit Log & Role-Based Access

Every admin action — who created, modified, exported, or deleted what, when, from which IP — is recorded in a searchable audit trail. Six predefined roles scope module access to the minimum each user needs.

- ✓ Searchable audit timeline with IP tracking
- ✓ Six roles: Super Admin → Content Manager
- ✓ Per-module permission scoping

## DONOR ASSURANCE

### Digital Certificates with QR Verify

Every sponsor, donor, volunteer, and event participant receives a unique numbered certificate with a QR code. Anyone — donor, auditor, regulator — can scan and verify authenticity on a public page within seconds.

- ✓ Auto-generated certificate numbers (TRUST/2026/000125)
- ✓ QR verification on public page
- ✓ PDF download + email delivery

★ *Registered under Bombay Public Trusts Act 1950 · 12A & 80G exempt · FCRA registered · Guidestar Platinum*

## 07 · NEXT STEPS

# Adopt the platform. *Connect every stakeholder.*

The platform is built, the design is ready, and the audit trail is in place. With database integration, payment gateway activation, and multi-language rollout, the Trust will have a fundraising and connectivity engine that scales for the next decade.

01

## Database Integration

Replace mock data with Prisma models and live API routes.

02

## Payment Gateway Activation

Wire Razorpay/PayU into the donate flow with live 80G receipts.

03

## Multi-language Rollout

Activate Hindi and Bengali content across public pages.
